Why did you choose CofC?

- The ocean, the location in a city and also the political atmosphere was a huge draw.

What is your favorite part about CofC?

- The location. In this city you can always find something to do.

What has been your favorite class so far?

- Astronomy, because I had an amazing professor

If you could give advice to an incoming freshman, what would you say?

- Don't slack off just because you are a freshmen, set realistic goals and practice good time management skills. But also have fun and enjoy the college experience.

Did you always plan on being a corporate communication major?

- No, originally I wanted to be a political science major. But eventually I decided a communication major was a better fit.

What is your dream job?

- Being the ~~General~~ ~~Manager~~ of a really nice resort. Being able to live in a tropical destination while making good money.

What are your plans for after graduation?

- Finding a job and starting to make my own living. Putting all my hard work from college to good use.

If you could live anywhere in the world where would you live?

- Chicago, I like the cold, and the big city. They have good job opportunities there and my family lives there.

What do you think about the Amanda Knox trial?

- It is terrible that she went abroad and had this experience. I think she is innocent but maybe her boyfriend was somehow involved in her roommate's death. We may never know the real truth.

What do you think about the death of Steve Jobs?

- It is really sad that he died because he is such an influential person in today's world. Thankfully, I don't believe his death will hurt Apple's shares in the market.
